MOTTO MOTO™

ON A MISSION TO MOVE PRESCHOOLERS

# Every child, born to move.

A 3-year physical literacy partnership for schools and preschools from Nursery to Senior KG. Structured, measurable and wonderfully fun.

## What is Motto Moto?

We turn movement into a skill children actually build, year after year. Your teachers deliver; we equip, certify and support them, with six things in the box:

1. **Weekly video curriculum** — Ready-to-teach lessons that grow with every year
2. **Teacher certification** — Your own teachers, trained and certified by us
3. **Activation kit** — Equipment arranged for you to be launch ready
4. **Quality support** — Weekly coaching feedback on real lessons
5. **Progress reports** — Three check-ins a year, tracked across 3 years
6. **Parent engagement** — A showcase day and a report that goes home

## One program. Three years. A growing child.

YEAR 1 · AGES 3–4
**Nursery**
Discover movement

YEAR 2 · AGES 4–5
**Junior KG**
Build and combine skills

YEAR 3 · AGES 5–6
**Senior KG**
Master it, graduate confident

### For Children

**Skills + confidence, through play**

- Real skills: run, jump, balance, throw, catch
- Confidence that grows with ability
- New, harder skills every year, never repeats
- Joyful sessions they look forward to
- Introduction to sports skills of 4 sports

### For Your School

**A premium edge, with no extra workload**

- A standout story for admissions
- Delivered by **your** teachers, we certify and support
- We compile, design and print every report
- A built-in reason for families to stay

### For Parents

**Progress they can actually see**

- A clear report on how their child is growing
- A showcase day to watch their child shine
- Visible new skills, year after year
- Healthy, active habits for life

**Five domains we build:** Locomotor · Balance & Posture · Object Control · Coordination · Confidence

## Let's get your school moving.

Designed by a certified gross motor skills coach with 15+ years in early-years movement. See a session live at your school.
